- In advance of the intended collection of the fertilized egg, recorded owner or lessee has notified the POAC in writing of his intention to attempt an embryo transfer and has paid the appropriate fee to enroll each donor mare in the embryo transfer program. This enrollment must be made each year that a transfer is to be performed, and once made, the fee is not refundable, nor can any substitution be made. This notice must be sent by certified mail, return receipt requested, in order to preserve for the recorded owner or lessee of the donor mare the only acceptable proof to the POAC of timely compliance, if such proof is requested.
- A POAC approved veterinarian is present during the collection and transfer procedure, at POAC discretion.
- Has its pedigree verified by DNA testing of foal, sire and donor mare, and by such other testing as the POAC deems necessary, all expense of which shall be the registration applicant's (including expense of travel and lodging of the POAC representative and fee of the approved veterinarian), and the foal's pedigree is subject to other such testing as the POAC deems necessary.
- In regard to a pony foaled by a mare that is not its genetic dam, but transferred to her by an embryo transfer technique, the owner of a donor mare is allowed the same privilege as the owner of a mare that naturally carries a foal. The resulting foal shall be eligible for registration if the above guidelines are followed.

Be sure to read the current POAC National Handbook for all Registration requirements for the resulting foal, as well as other necessary requirements for this program.
